

## MANANA

The rain pitter patters on my tin roof  
That life is one big mystery  
It's just another sign that there's living proof  
A simple little fact that confuses me

Chorus:

Then you come a knockin' at my back door  
Unwilling to reveal what you're looking for  
I guess I'll have to wait until tomorrow

Manana Manana Manana Manana Manana

Mornin' comes and you're not there  
My dog looks at me as if to say "beware"  
The newspaper comes and the headlines read  
This world is full of villains and their dirty deeds

(Chorus)

The snow is driftin' the roads are slick  
I call you up a say "come over quick"  
There's somethin' that I've been meanin' to say  
But the words keep a getting' right in my way

There's a million things that I've been meanin' to do  
Including saying that "I love you"  
I often tend to procrastinate  
I'm never on time and I'm always late

(Chorus)

Manana Manana Manana Manana Manana

I guess we'll just have to wait until Manana
